

# H-2-Markets Winter School

"Hydrogen Energy: From Engineering and Economics to Entrepreneurship and future perspectives" from 9 to 13 November 2025

American University in Cairo, Egypt

**Click here to apply**

<https://form.jotform.com/252473638260358>

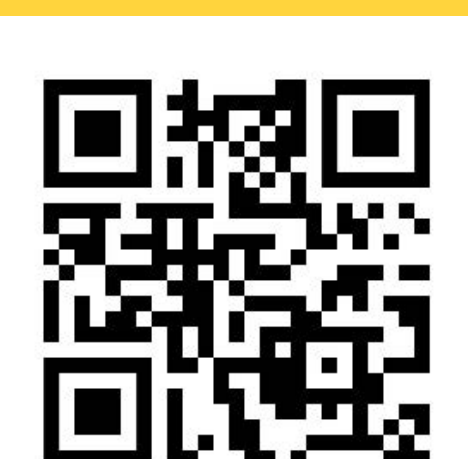

Join us for the "Hydrogen Energy" winter school from November 9 - 13 2025, where we delve into the dynamic world of hydrogen markets. This intensive program will cover critical aspects of hydrogen storage, demand, supply, and transport. The sessions will provide in-depth insights, cutting-edge research, and practical solutions, including developing market-oriented solutions, to deal with current challenges.

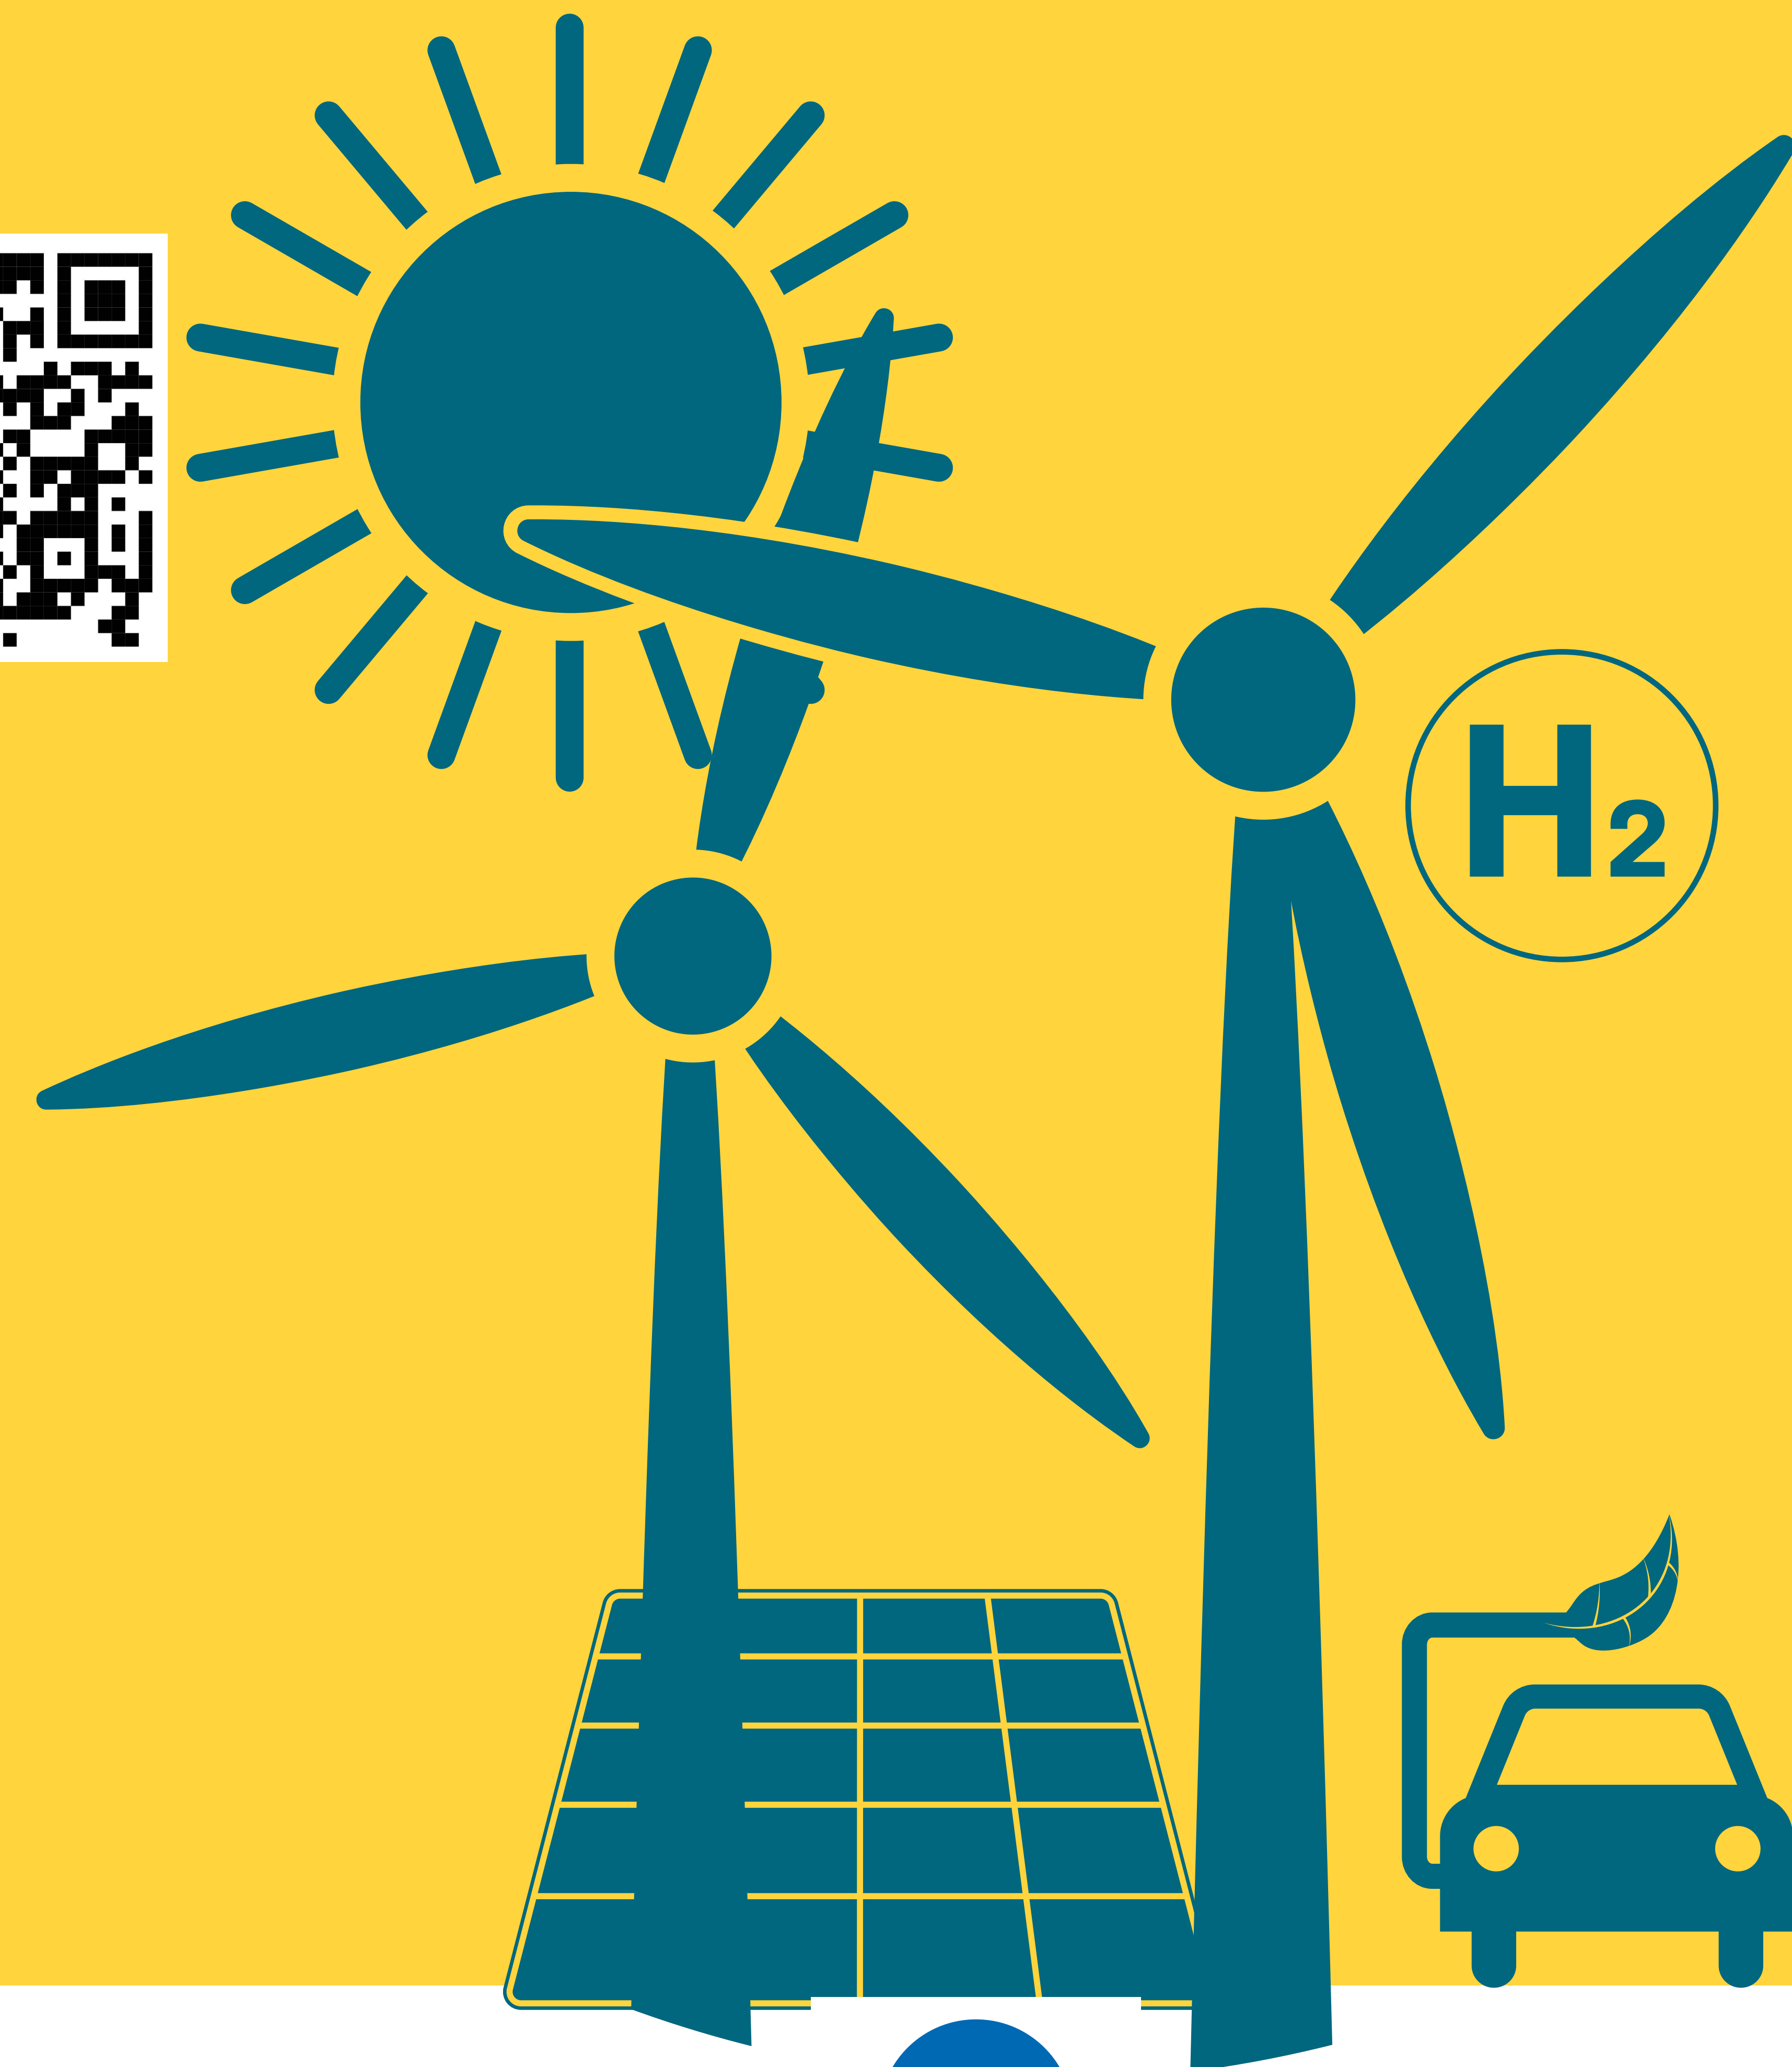

Don't miss this opportunity to engage with experts, network with peers, and expand your knowledge in the rapidly evolving hydrogen sector.

To ensure continuity in the collaboration between the partner universities from Morocco, Egypt and Germany, a series of winter/summer schools and workshops will be hosted in Rabat, Cairo and Cologne during the project's funding period until end of 2026.

More Information about the project: <https://h2markets.net/>

**Deadline for application: 21 September 2025**
